

ARRL STANDING ORDERS

(Updated July 2025)

Editor's Note to the Board

This document contains the existing standing orders, as originally written. They are arranged into groups by subject.

Standing Orders (SO) adopted before 1983 were revised and restated at the 1989 Second Meeting or the 1991 Annual Meeting. These bear the numbers, from 1 to 132, that were assigned at that time. [Secretary's note: Because so many of the early Standing Orders have been deleted, and because the numbering system used to 1983 offers no information as to when the motion was adopted that resulted in the Standing Order, it would be appropriate to eliminate the references to the 92 deleted Standing Orders from to 1983 and to renumber the remaining 40 Standing Orders.]

For Standing Orders adopted in 1983 and later years, the numbering system is that the first three digits indicate the year and whether the Standing Order was adopted at the first or the second meeting of the year, and the last two digits indicate the Minute at which the Standing Order was adopted. For example, "89-2.21" indicates that the Standing Order was adopted at Minute 21 of the Second 1989 Meeting.

In January 2022, the Board approved to present the Standing Orders by numbered topic areas for easier reference.

1.0 EDUCATION MISSION AND VISION STATEMENT

[SO #06-1.40] The following ARRL Education Mission and Vision Statement is adopted: ARRL will advance the art and science of radio through education,

1. by providing instruction and instructional materials to prepare new Amateur Radio operators for licensing as well as to prepare licensed amateurs to upgrade to higher levels of licenses;
2. by advancing the knowledge of radio science and operating skills among licensed operators through instruction, publications, and activities;
3. by training radio amateurs in the skills needed to provide service to their communities in times of emergency;
4. by engaging youth in the magic of radio, inspiring them to further personal investigation in the sciences and engineering as well as expanding their horizons to promote global goodwill through contact with cultures around the world; and
5. by expanding interest and understanding of the science of radio and the application of wireless technology in daily life.

Through its educational efforts ARRL will enrich lives through lifelong learning and achievement and provide service to local communities. ARRL educational outreach's objective is to inspire exploration in radio science and serve as a catalyst for new scientific discoveries and new technologies.

2.0 BOARD OF DIRECTORS

2.1 Board Administration

2.1.1 [SO #19] The Secretary is directed to inform all Directors at least two weeks before the formal call for the Board meeting, that such call will be made, giving the date, so that Directors have sufficient time to file notice to changes in Articles of Association and By-Laws before the formal meeting notice is mailed. [Amended January 2005]

2.1.2 [SO #29] Upon the request of any Director, there shall be furnished to each Director a written copy of any motion to a vote on that motion.

2.1.3 [SO #30] Each Director offering a motion requiring the expenditure of funds for implementation shall include with the motion his estimate of the costs involved and the suggested method of funding those costs.

2.2 Board and Executive Committee Minutes

[SO #11-2.18] Effective with the minutes of the 2016 Second Meeting of the Board of Directors the procedure for the approval of Board meeting minutes will be as follows:

1. The Secretary will circulate draft minutes to Board members as soon as possible after the meeting.
2. **[SO #25]** The minutes will show the name of the person who seconds each motion.
3. Once Board members have had the opportunity to review the draft and offer comment, a final draft will be circulated.
4. Three business days after distribution of the final draft, the Secretary will call for a vote by electronic mail to approve the minutes.
5. The minutes will be declared as approved upon the receipt of affirmative votes of eight or more directors within three business days of the call for the vote.
6. The final minutes will be made available to members following formal approval. [Updated 18-1.44]

2.3 Executive Committee Agendas and Minutes

2.3.1 [SO #10-1.57] Both agendas and minutes for ARRL Board and Executive Committee meetings will be posted on the ARRL web site, and members who wish to be sent copies by e-mail can request them via a selection on the ARRL Member Data Page.

2.4.2 [SO #24-2.24] The ARRL Board adopts a policy that for any pending motion that pertains to ARRL governance documents, a Roll Call Vote shall be recorded, including who voted and how, or, if appropriate, as unanimous votes or acclamations. All other motions (e.g. votes made during executive sessions, club milestones, special recognition, etc.) that do not pertain directly to ARRL governance can be taken by a simple show of hands or as a call for yeas or nays. In the case of any dispute over whether a motion is a governance motion, a Director making a motion for a roll call that is seconded and voted in the affirmative by at least 5 Directors shall make it a Roll Call Vote.

2.14 Technical Standards Committee

[SO#25-1.29] The ARRL Board of Directors formally approve the new Technical Standards Committee as outlined in the Charter of the ARRL Technical Standards Committee.

2.15 Technical Standards Committee Charter

THE ARRL TECHNICAL STANDARDS COMMITTEE CHARTER

The ARRL Technical Standards Committee (“TSC” and referenced within this document as the “Committee”) is responsible for the oversight of standards development that could impact amateur radio. This includes the oversight, development and maintenance of technical and operational standards that may be developed by the ARRL. Technical standards may be related to amateur radio equipment, devices, and apparatus meant to be sold in the United States, and under jurisdiction of the Federal Communications Commission, (FCC). Original Equipment Manufacturer (OEM) compliance with these standards is deemed to be entirely voluntary in nature, however published standards as approved are considered “engineering best practice” in the eyes of the TSC and ARRL, and ARRL may choose to endorse standards compliance. Operating standards represent best practice in the ways that amateurs operate their stations under the FCC CFR 47 Part 97 regulations. Although the Committee may develop standards within its own membership, it also oversees the development of standards under ARRL-sponsored standards Working Groups.

The Committee also monitors industry and regulatory standards work, to identify standards under development that could impact amateur radio and makes recommendations to the Board and ARRL staff on the best ways for ARRL to influence those standards, if necessary.

Further committee responsibilities are outlined in the Mission portion of this document.

Policies & Procedures:

The committee shall follow the *ARRL Policies and Procedures for Standards Development* document as approved by the Committee, and other documents as applicable. All formal meetings of the Committee shall be conducted per Robert’s Rules of Order.

Members:

The TSC consists of officers and other members as follows: there shall be a Chair,

(optional- Co-Chair), Vice Chair, Secretary, ARRL Board Liaison, and current ARRL Laboratory Manager (or his/her designate). The ARRL Laboratory Manager can fill any Officer position in the TSC other than that of ARRL Board Liaison. All officers and appointed members of the Committee shall be at least full members of ARRL. The total number of Committee members may be fluid, depending on expertise requirements for the technical standard under development. The use of outside “subject matter experts” for any standards development effort is to be encouraged.

The Committee Chair(s) and ARRL Board Liaison members shall be appointed by the ARRL President for a term of one year, which can be renewed or changed by the ARRL President annually following the January Full Board meeting. Other Committee members are recommended by the Chair(s) and are approved by the ARRL President. The Vice Chair and Secretary Committee officers are nominated and elected by a simple majority vote of permanent Committee members for a renewable period of one year.

Mission:

The Committee shall be responsible for following:

1. Overseeing the development of ARRL technical and operating standards and ensuring they are within the scope of the Committee. The Committee may also develop standards on its own initiative
2. Ensuring ongoing maintenance all standards overseen or developed by the Committee.
3. Acting on other matters requiring Committee effort
4. Seek other standards-development organizations to cooperate with and/or establish formal membership or liaisons. These may include international organizations, in conjunction with the current ARRL Vice President of International Affairs
5. Monitor the development of any industry standard that could impact amateur radio and make recommendations to ARRL staff and/or the ARRL Board for appropriate ARRL involvement
6. Oversee and support of any standards that may be developed by staff (ARRL Lab, other)
7. Request funding for ARRL purchase of industry standards that could impact amateur radio
8. Communicating with the ARRL Board of Directors via formal written reports on specific committee activities and accomplishments, including ARRL’s work with the IUT C63 committee and ARRL’s work with the IEEE EMC Committee standards.

Objectives:

Identify possible areas within the scope of the TSC which may require standardization. These may include:

1. Lists of terms, definitions, or symbols.
2. Expositions of scientific methods of measurement or tests of the parameters or performance of any device, apparatus, system, or phenomenon associated with the art, science, or technology related to amateur radio.
3. Characteristics, performance, and safety requirements associated with devices, equipment, and systems related to amateur radio. These standards may exceed current FCC requirements outlined in FCC CFR 47 Part 97 regulations, but are meant to reflect “engineering best practices”
4. Recommendations reflecting current state-of-the-art in the application of engineering principles to any field of technology related to amateur radio.

TSC Sunsetting:

As the amateur radio technological landscape is constantly evolving, the TSC is meant to be a permanent ARRL Board level committee, and as such shall have no defined sunset date. The Committee may be disbanded by an ARRL Board motion approved by the simple majority of the ARRL Board of Directors, or by the ARRL Executive Committee operating on the Board’s behalf.

2.16 Governmental Affairs Committee (Sunset)

2.16.1 [SO#25-1.25] The ARRL Board of Directors hereby authorizes the CEO to partner with Board representative Director Stratton to oversee the League’s efforts to influence Congress in the passage of a bill to achieve the stated goal herein. The CEO is required to provide a detailed report to the A&F Committee at each of their quarterly meetings. The Board further acknowledges with thanks the tireless work of the Governmental Affairs Committee for the many years of diligent and frequently arduous effort that has yielded the hopeful results to date, and hereby sunsets the Committee.

3.0 EXECUTIVE FUNCTIONS

3.1 Election to the Executive Committee

[SO #13-2.16] Election to the Executive Committee requires a majority of the ballots cast, i.e., eight votes if there are fifteen Directors voting. The five candidates with the most votes will be elected. If a tie vote results in an indeterminate outcome, re-balloting will be conducted between or among the candidates who tied; those candidates with more votes will be declared elected and those with fewer votes will be eliminated from further balloting.

If fewer than five candidates receive a majority, those who received a majority will be declared

elected and re-balloting will occur between or among candidates who received less than a majority.

3.2 Secretary's Duty to Publish an Annual Report

[SO #95-172] The Secretary shall publish each year an "Annual Report of the ARRL."

3.3 Rules for Division Directors and Vice Directors

3.3.1 [SO #45] Division Directors are authorized to attend ARRL National Conventions with expenses incurred chargeable to authorized Division allotments.

3.3.2 [SO #48] The Secretary is directed to furnish Vice Directors with certificates and pins similar to those furnished to Directors.

3.3.3 [SO #52] The Chief Executive Officer is instructed to provide Directors and Vice Directors with current copies of each League publication on request. [Amended January 2005]

3.3.4 [SO #53] The Vice Director of each Division may be reimbursed for expenses incurred in performing duties on behalf of the League provided (1) each duty or series of duties shall have been specifically authorized in writing by his Director to their performance and (2) such expenditures, when added to the other authorized expenditures of the Director, do not exceed the amount budgeted for that Division by the Board of Directors.

3.4 Director and Vice Director Email

3.4.1 [SO #13-2.34] Division Directors will have the option of having emails to their entire Division or a subset thereof held for review or automatically and immediately sent without being held. Each Director will be able to change their preference at any time electronically.

3.4.2 [SO #89-1.43] Newly elected Directors and Vice Directors are to be placed on electronic mail, put on the distribution list for the Directors' Letters, and start receiving copies of correspondence from members (new Directors only) as soon as declared elected.

3.4.3 [SO #24-1.44] The ARRL Board resolves that The ARRL provide email services to Officers, Directors, and Vice Directors (ODV) to conduct board business. The use of personal email services by ODV members has become increasingly unreliable, inconsistent and more time consuming to support given external factors to the ARRL's IT department.

This includes:

- 1) Within a reasonable time, but no later than April 1st 2024, all ODV members must use the ARRL provided email account to send and receive all official board records including email messages and documents.
- 2) ODV members must connect directly to the email service through either client software or a web interface. The use of message forwarding will not be considered a direct connection to the email service.
- 3) ODV members may use any client software product approved by ARRL IT for accessing the ARRL provided email service.

3.5 "Past Director" Title

[SO #62] After leaving office, in recognition of his or her service, a Director of the ARRL is authorized to use the title of Past Director.

3.6 Newly Elected Section Managers

[SO #105] The Chief Executive Officer shall offer any newly elected or re-elected Section Manager a complimentary copy of the *ARRL Handbook for Radio Communications* and a set of training/operating manuals to aid in his Field Organization efforts.

3.7 Section Emergency Coordinator

[SO #03-2.27] The Section Emergency Coordinator in all 71 ARRL Sections should develop, implement, and maintain a comprehensive Section Emergency Plan. [SO #23-1.15] The ARRL Board resolved that:

1. The Section Manager, although elected by membership, shall be considered accountable to Headquarters and the Board of Directors to discharge their duties as Section Manager. Direct oversight and management of the sections shall remain with the SM.
2. To facilitate more open and transparent communication between the Director and the Divisions Section Managers, the Director in each Division shall establish and utilize a Division Cabinet, the members of which comprising at minimum, the Director, the Vice Director, and the Section Managers of the relevant Division. This cabinet should meet regularly but at a minimum of twice a year prior to the annual and second Board of Director meetings to provide and receive information to and from all parties. Meetings can be held in person, or by electronic means. The Director may include others as needed. If regular

communications are normally held between these parties the meeting requirement would be deemed satisfied; however, the intent is to involve all parties in regular open conversation about matters of the league.

3. Review of Section activity shall be performed by the ARRL Field Services Manager in conjunction with the Division Director. The intent is to have the Field Service Manager and relevant Director periodically "check in" with the SM and collectively review or address any issues or concerns any party may have.

4. Other add-on ARRL publications remain priced at current levels.
5. Per revised By-Law 4(b) enabling the CEO to establish a monthly payment plan for ARRL members 70+ years of age and older, the initial monthly pricing will be established by the CEO as follows:
 - Monthly Dues Payment - \$6/month
 - Monthly QST or OTA Print Payment - \$3/month
 - The CEO is requested to periodically review the cost of processing monthly transactions and implement revenue neutral adjustments in these prices to ensure that the costs of processing monthly transactions remain adequately covered.

unrestricted authority and responsibility to conduct all matters related to the registration, protection, enforcement, and administration issues related to Copyrights, Trademarks, and Intellectual Property on behalf of ARRL.

6.0 LEGAL ISSUES

6.1 Contract Legal Review

[SO #10-2.34] Publication printing contracts valued at or in excess of \$20,000, or other contracts and agreements valued at \$10,000 or greater must be reviewed from a legal standpoint by the ARRL General Counsel.

6.2 Legal Assistance to Members

[SO #104] A strong and appropriate disclaimer is to be noted upon all materials and responses made to requests for assistance or inquiries involving legal matters; it is the intent and sense of the Board, and accordingly, League policy, that the League is not furnishing legal aid or advice to anyone, and that any response made by the League be understood to be general guidance pointing only to an appropriate source of help.

6.3 Volunteer Memoranda of Understanding

[SO #07-2.30] The ARRL Board of Directors adopted the following policy relating to memoranda of understandings with other parties:

Amateur Radio emergency communications volunteers participating in ARRL- sponsored programs should not be required by served agencies to undergo background investigations of any kind. However, it is generally acceptable for a served agency to require these volunteers to undergo a criminal background check, preferably performed by a law- enforcement entity. It is not reasonable for a served agency to require these volunteers to consent to credit checks, mode of living investigations, or investigative consumer reports. In negotiating or renegotiating memoranda of understanding that commit the League to provide volunteer emergency communications support, the League must be assured that these volunteers will not be required by the partner organization to consent to credit investigations, mode of living investigations, or investigative consumer reports.”

6.4 Liability Waivers

[SO #04-1.37] The ARRL Board of Directors resolves that blanket liability waivers are disfavored by ARRL as a matter of policy because they are contrary to the public interest and the promotion of volunteerism. ARRL discourages event sponsors from requiring such waivers as a condition of accepting the volunteer service of radio amateurs at public service and public safety events.

While ARRL takes no position as to whether field organization participants should sign such blanket waivers when required by the event sponsor, radio amateur participants are cautioned that the signing of these blanket waivers may preclude recovery of any loss they incur as the result of

their volunteer services, no matter what the cause of the loss.

6.5 Legal Research and Resource Fund

[SO #86-2.63] A “Legal Research and Resource Fund” is established to provide for research and expert opinions and filing of amicus curiae briefs in Amateur Radio-related legal proceedings. Any such assistance shall be upon recommendation of the Amateur Radio Legal Defense & Assistance Committee. The fund shall be supported by voluntary member contributions. (See also Minute 43, January 2010 Board Meeting)

6.6 Amateur Radio Emergency Service

6.6.1 [SO #04-2.20] WHEREAS, for security reasons and for purposes of establishing formal relationships with served agencies, ARES® groups within an ARRL section are increasingly in need of affirmative recognition; and

WHEREAS, ARES® (Amateur Radio Emergency Service®) is a program of, and both logos are registered trademarks of the American Radio Relay League, Incorporated;

NOW THEREFORE, it is ARRL policy that ARES® groups, and any group using the ARES® logo, shall acknowledge the nature of the ARES® program as an ARRL program, and abide by the guidelines of the program established by ARRL as amended from time to time, according to the following principles:

1. Each ARES® group will, when using the term “ARES” or “Amateur Radio Emergency Service”, utilize the ® symbol in any printed matter or in any electronic media and will acknowledge that both logos are registered marks of the American Radio Relay League, Incorporated and are used by permission.

This program includes:

1. A permanent themed marketing campaign in magazines that will appear in each issue, subject to the limitations of paragraph two, which marketing campaign is designed to recruit new members into the ARES program.
2. The marketing campaign is to appear as space is available but is not intended to appear in advertising space.
3. The philosophy of the development of materials and marketing will be reviewed and, if needed, comments and suggestions returned by the SC-FSC Committee. The EC-FSC will review, with staff, successes after six months.

7.0 TRAVEL

7.1 Reimbursable Travel Approval

7.1.1 [SO #132] The Chief Executive Officer shall obtain the approval of the appropriate Division Director to official travel by HQ employees to clubs, conventions, hamfests, and the like as well as to events of general public interest designed to promote facets of Amateur Radio.

8.0 SPECTRUM ISSUES

8.1 Amateur Radio Spectrum Defense

[SO #12-1.51] The Board tasks the ARRL Executive Committee along with such additional assistance as the Executive Committee deems necessary, with the responsibility to periodically review the [National Broadband Plan Committee] Report; assess new or increased Broadband challenges to Amateur Radio Service spectrum; to recommend any appropriate revisions to the responsive strategies set forth in the NBP Committee Report; and to implement such of the Report's

strategies as the Executive Committee should deem suitable for the defense of Amateur Radio Spectrum with particular attention to the bands most substantially and/or immediately threatened.

8.2 Band Plan Frequency Coordination

[SO #83-2.81] The following policy statement shall be printed adjacent to the band plans published in future editions of the ARRL *Repeater Directory*: “The ARRL supports regional frequency coordination efforts by amateur groups. Band plans published in the ARRL *Repeater Directory* are recommendations based on a consensus as to good amateur operating practice on a nationwide basis. In some cases, however, local conditions may dictate a variation from the national plan. In these cases, the written determination of the regional frequency coordinating body shall prevail and be considered good amateur operating practice in that region.”

8.3 Double Sideband AM Support

[SO #08-1.34] The ARRL Board of Directors affirms its support for the retention of double-sideband AM as a permitted emission in the Amateur Radio Service.

8.4 Repeaters

[SO #96-2.69] In exchange for supplying information concerning location, operational characteristics and coordination status of repeaters and similar amateur stations without constraint, staff is authorized to reimburse each recognized local frequency coordination body an amount equivalent to the cost of collecting such data independently, such payment to be made annually to each local frequency coordination body. In failure of freely supplied information without constraint, staff may acquire data independent of any agreement.

8.5 Repeater Directories

[SO #84-2.48] VHF/UHF *Repeater Directories* published by the ARRL shall include within the directory a designation to show the difference between a repeater that has been coordinated by the Area Frequency Coordinator and one that has not.

8.7 Volunteer Monitoring Program

[SO #18-2.19] The ARRL Board voted to retire the “Official Observer” program and institute the “Volunteer Monitoring” program.

8.8 Position on Shortwave Modernization Coalition (SMC)

[SO #24-1.40] The ARRL Board resolved that such operations of Shortwave Modernization Coalition (SMC) member firms and related businesses are in conflict to the mission of ARRL to protect amateur radio for the benefit of its members, and their associated operations threaten the HF operating interests of ARRL members, and the ARRL board requests that the Volunteer Monitoring program explore monitoring, logging, and recording (preferably IQ data or spectrum display) of interference from SMC operations and their effect on amateur HF frequency allocations.
