

ADOPT AN ASTRONAUT

This activity involves researching a topic, collecting information, and using that information to develop either a poster with an oral report or a power point presentation.

Research Topic: Students are to select a NASA Astronaut either past or present to research. Lists of NASA Astronauts can be found at: www.nasa.gov

Biographical information can be found on the internet or by searching libraries. Depending upon the Astronaut selected some material can be located in past issues of magazines or newspapers.
